#### -ECONOMICALLY MISSISSIPPI SPEAKING

Mississippi ranked fourth for the nation in personal income gain, rising 9 per cent in 1959 over 1957. Personal income from manufacturing activities in Mississippi increased 11 per cent in 1958 over 1957. Mississippi also ranked first in personal income from construction which rose 29 per cent over 1957. Farmers realized a net income of \$284,100,000 from farming in 1958. This was \$85,-800,000 more than in 1957. The number of oil wells drilled in Mississippi in 1959 is expected to be 30 per cent higher than

### DECEMBER EGG PRODUCTION

Egg production from Mississippi flocks was 65 million eggs during December. This is 41 percent higher than the 46 million eggs for December, 1959. Number of layers on hand during the month averaged 5,267,000—the most for any month during 1959, Compared to the same month of 1958. this is a gain of 1,200,000 layers. Rate of lay for the month averaged 12. eggs per lawer, 8 per cent above last year. Pre-liminary estimates for the State indicate that 1958 was a record year for egg production.

#### TIME TO PLANT MAGNOLIAS

Now is the time to plant magnolias, the official state tree and flower. The magnolia which grows so profusely in the South is scientifically known as Magnolia grandiflora. Should one be searching for a fine avenue tree or an oranmental for a lawn, one need look no further than the magnolia with its wide and shiny leaves and its carved ivory blossoms. Always green, its rich cloak is welcome in contrast to the bar branches of many other southern sections of the south eastern United States.
